

Additional Training Options

Coaching

empowerED works with administrators, educators, teacher leaders, and service providers to support them one-on-one. This could involve navigating a challenging situation, implementing strategies, or other topics of your choosing. We will match a consultant with you who has expertise tailored to your needs.

Tier One Behavior PLC

Small group Professional Learning Communities, or PLCs, are held to identify a problem of practice related to student behavior, develop potential solutions, implement an agreed-upon solution, and debrief on the solution's effectiveness. This PLC series is highly individualized, relevant, and based upon the needs of educators.

"Jenna, I want to thank you for all your input so far with our student. You've really validated so much of how I've felt... I've always struggled with finding the perfect balance of being passionate and advocating the right way - maybe there's not a perfect balance - but I really would like to emulate the way you go about things. Just know I sincerely appreciate meeting you."

Implementation Planning

Many districts are eager to provide more equitable and inclusive programming but aren't quite sure where to start or how to begin implementation. We work with leadership teams on how to create structures that support your goals. This might involve strategic planning, resource mapping, revamping the RTI, MTSS, or PBIS framework, developing a structured literacy block, or committee development.
